

SENATORS WANT MONROE DOCTRINE MADE MORE CLEAR

Committee Backs Lodge in
Call That the Document
Be Reaffirmed.

WASHINGTON, July 31.—The Senate Foreign Relations Committee today adopted without dissent Senator Lodge's recommendation that the United States reaffirm the Monroe Doctrine in terms clear to all the world and adopted a resolution to express disapproval of the purchase of any possible naval bases on the American continent by any foreign power.

An early report to the Senate is expected that that body will be asked to endorse the stand taken by the committee. A firm statement by the United States is asked for as a result of the Magdalena Bay incident, where it was shown that a Japanese syndicate had been negotiating for 4,000,000 acres of land along the west coast of Lower California in Mexico.

While the Japanese Government was found to have had no connection with the syndicate, the Senate sub-committee, headed by Senator Lodge, reported to the full committee today that the circumstances afforded an appropriate occasion for an expression of the view of the Senate regarding such cases.

The Lodge resolution, which probably will be adopted, declares that the United States cannot see "without grave concern" any harbor or advantageous spot in the Western Hemisphere taken over by a foreign government, or by a foreign corporation bearing close relation to the government if such occupancy would threaten the commerce or the safety of the United States.

RIOTERS SHOT IN STRIKE FIGHTS ON LONDON DOCKS

One Killed and Many Wounded
by Bullets and Stones
as Thousands Clash.

LONDON, July 31.—Seven strikers were shot, one of them dying later in a hospital, and twenty other men were seriously wounded by sticks and stones as the result of rioting at the Victoria and Albert docks in London today.

The chief encounter occurred at the Victoria docks, where 2,000 of the laborers who had been on strike for over ten weeks appeared at the docks in compliance with the manifesto of the Dock Workers Federation ordering them to resume work. They found, however, that their places were occupied by non-unionist or "free" laborers, who had been taken on during the strike and who were determined to continue at work. They fought the men belonging to the union to eject them and a severe fight ensued.

Bullets, bricks and stones flew in all directions. The police, of whom only about a dozen were present, were taken by surprise and were powerless to suppress the disturbance.

Another hot fight centered around the steamer City of Columbia, which was being loaded at one of the wharves. Unionist workmen tried to board her, but were repelled by the non-unionists with revolvers, bottles and belaying pins. Many men were injured here, some of them with bullets.

Large reserves of police were called out and finally succeeded in quelling the disturbances. Both the unionists and non-unionists accuse each other of starting the trouble.

Tragedy of Two Tiny Legs.

A tiny pair of legs, evidently cut from an infant only a day or two old, were found on top of an ash can at No. 241 Mulberry street today by James Rizzo of No. 21 Spring street, a street cleaner. Rizzo turned the legs over to a policeman. Detectives questioned Anthony Arcano, a junk dealer at the address in front of which the legs were found. He said he had found them among old papers he had been purchasing for the last week, which he was sorting today. He put them in the ash can, he said, because he did not know what to do with them. The police sent them to the coroner's office.
